Creating Your Dream Day

VISION

The first step in designing your wedding is to meet with us for a free consultation so we can discuss your vision and style. As each wedding is bespoke and unique, this first meeting is to listen to your ideas and offer advice for the best ways to bring them to life at your venue and within your budget.

CREATE

Following your design consultation, we will create a personalised quote based on the ideas discussed. This can be updated and amended in the months leading up to your wedding, with a final sign-off meeting 6 weeks before your big day. The balance is then due 4 weeks before your wedding date.

DELIVER

Our team of highly-skilled florists and stylists will be on site on the morning of your wedding to set up and make your venue look beautiful! We will also deliver bouquets, corsages and buttonholes to wherever you're getting ready and transport items between ceremony and reception.

For every wedding we book, we fund the planting of a tree

In 2025, we were delighted to partner with non-profit initiative, **JUST ONE Tree**.

Climate change affects us all. Trees are an effective way to remove carbon dioxide from the atmosphere. **JUST ONE Tree** makes it easy for us all to do exactly that.

Together we can solve the problem. Find out more: www.justonetree.life

Florals that support growth

Our confetti is sourced from **Botanicals Kenya** - 100% natural and biodegradable real flower confetti which is made from the finest selection of bougainvillea flower petals, harvested by hand and gently air dried.

Sustainably grown and ethically produced, all profits from the sale of the confetti goes the Sheldrick Wildlife Trust charity, supporting wildlife conservation and marginalised communities.
